## PROJECTS

### 1. Glossier | 🌐 ∣ 🐙
**JavaScript | Git | HTML5 | CSS3 | Responsive Web Design**

- Developed a women's makeup and skincare online shopping application called Glossier.
- Provided user registration/authentication, product browsing, and cart functionality.
- Enabled order placement and performed CRUD operations.
- Executed the project individually, completing it within five days.

### 2. BOAT (Clone) | 🌐 ∣ 🐙
**JavaScript | CSS3 | HTML5 | Responsive Web Design | Git | |**

- Developed an online e-commerce website named Boat, catering to boat-related products.
- Implemented user and admin registration/authentication, along with cart and order management.
- Designed and constructed the frontend user interface.
- Executed dynamic time and date updates based on user selections.
- Created modules for Customers and Categories, managing exceptions and validations.
- Integrated Spring Security into the application.
- Collaborated in a team of four to complete the project in five days.
