

VIVEK VERMA

Frontend Developer · React.js · React Native · Redux · JavaScript

+91 9369546165 | vivekverma4679@gmail.com | Prayagraj, UP | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SUMMARY

Frontend Developer with 1.8+ years of professional experience in React.js, React Native, and Redux. Proven track record of delivering production features end-to-end — from UI design to API integration — across web and mobile platforms. Passionate about clean code, fast UIs, and great user experience. Notice period: 15 days.

SKILLS

Frontend: React.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Redux, Tailwind CSS, Expo Go, MUI

API & Tools: REST API Integration, Git, GitHub, Postman, Figma, VS Code, Agile / Scrum

Backend Basics: Node.js, Express.js, MongoDB (API integration proficient; MERN exposure via projects)

EXPERIENCE

Full Stack Engineer *Dec 2024 – May 2025*

Galific Solutions · Pune · Remote

- Built Doctat — a production healthcare SaaS platform used by clinics and patients — using React.js, React Native, Node.js, and MongoDB
- Developed core modules: patient management, appointment scheduling, doctor dashboards, prescriptions, billing & payments, pharmacy workflows, reports & analytics, and role-based auth
- Built and maintained the patient-facing mobile app in React Native with real-time data, notifications, and responsive UI
- Integrated REST APIs end-to-end; improved component architecture, performance, and reusability across web and mobile
- Collaborated with backend, design, and product teams in agile sprints — delivered features consistently on schedule

Frontend Developer Intern *Aug 2024 – Nov 2024*

Galific Solutions · Pune · Remote

- Built responsive React.js UI components and handled REST API integration using Redux
- Promoted to full-time engineer within 4 months based on consistent performance and ownership

PROJECTS

Doctat Healthcare Platform · React.js · React Native · Node.js · MongoDB [Landing page Live ↗](#)

- Production healthcare SaaS — hospital & clinic management, patient mobile app, appointments, billing, prescriptions, and analytics dashboards

Anti Chess Game · React.js · JavaScript [Live ↗](#) · [GitHub ↗](#)

- Interactive browser-based anti-chess game with full game logic, move validation, and turn management

Leo Bloggers · React.js · Redux · Node.js · Express.js · MongoDB [Live ↗](#) · [GitHub ↗](#)

- Full-stack blogging platform — JWT auth, blog CRUD, category browsing, fully responsive UI

Sugar Cosmetics Clone · React.js · Redux · Node.js · Express.js · MongoDB [Live ↗](#) · [GitHub ↗](#)

- Full-stack e-commerce app — product browsing, cart, order placement, user auth, and REST API-backed CRUD

EDUCATION & CERTIFICATION

Full Stack Web Development — Masai School *Mar 2023 – Mar 2024*

Intensive bootcamp — JavaScript, React.js, Node.js, DSA, system design · [View Certificate ↗](#)
